

BIOFUSION POSTER PRESENTATION COMPETITION

Official Rule Book

1. ELIGIBILITY, REGISTRATION, AND SUBMISSION GUIDELINES

The BioFusion Poster Presentation Competition aims to promote high-quality scientific research and effective communication among students and early-career researchers. All participants must follow the guidelines below to ensure fairness and academic integrity.

1.1 Eligibility Criteria

- All participants must meet the eligibility requirements set by the organizers (e.g., academic or institutional affiliation).
- Every member must be registered before the deadline; incomplete registration leads to disqualification.

1.2 Nature of Work

- Only **original research work** is eligible.
- Submissions based on borrowed data, previously presented posters, or literature reviews are not allowed.
- Research must be authentic, verifiable, and conducted ethically.

1.3 Abstract Submission

- An abstract of **250–300 words** must be submitted in **Word or PDF format**.
- The abstract should include the motivation of the study, objectives, methodology, major findings, and significance.
- **A graphical abstract is encouraged but not mandatory.**
 - If included, it should visually summarize the research question or findings.
- Plagiarism checks are required, and any detected misconduct leads to immediate disqualification.

1.4 Poster Specifications

- The poster must strictly follow **A0 dimensions (841 mm × 1189 mm)** with **portrait orientation only**.
- Minimum text size: **12 pt** in **Times New Roman** for body text.
- Posters should maintain professional formatting, clear layout, and readable spacing.

1.5 Registration Requirements

- The participant must complete the individual registration process before the specified deadline.
 - Incomplete registration, missing details, or incorrect information may result in the entry being considered invalid.
-

2. CONTENT REQUIREMENTS AND ETHICAL COMPLIANCE

To maintain scientific clarity and ethical standards, the following content elements are mandatory for all posters.

2.1 Required Poster Components

Each poster must include:

- Title
- Author names and affiliations
- Introduction / Background
- Materials and Methods
- Results (with appropriate figures/tables)
- Discussion and Conclusions
- Acknowledgments (if any)
- References / Citations

2.2 Figures, Tables, and Visual Elements

- All figures must be clear, high-resolution, and correctly labeled.
- Captions, legends, units, and axis labels are required for all visuals.
- Visual integrity must be maintained; image manipulation or misleading illustrations are prohibited.

2.3 Use of AI Tools

- AI tools may be used for text generation, image assistance, statistical support, etc., **provided their use is declared openly.**
- Undisclosed AI-generated content will result in immediate disqualification.
- Proper attribution is necessary when AI contributes significantly to any part of the content.

2.4 Ethical Compliance

- Research involving human participants, patient samples, or animal models requires **documented ethical approval**.
- Unethical research practices, such as data fabrication, falsification, or violating consent protocols, are strictly forbidden.

2.5 Citation Requirements

- All references must be cited directly on the poster in a standard academic style (APA, MLA, Vancouver, etc.).
 - Missing citations or use of uncredited materials may lead to penalties or corrective actions.
-

3. EVALUATION PROCESS AND PRESENTATION REQUIREMENTS

Participants are evaluated by an expert review panel based on scientific quality, clarity, and presentation effectiveness.

3.1 Evaluation Criteria

Judges will assess posters and presentations using the following considerations:

- **Research Quality:** Scientific originality, robustness of methodology, and relevance of findings.
- **Visual Design:** Organization, aesthetic clarity, readability, color contrast, and layout.
- **Communication:** Clarity of written content, logical flow, and ability to convey complex information effectively.
- **Oral Presentation:** Engagement, clarity during explanation, confidence and quality of responses during the question-and-answer session.

3.2 Presentation Guidelines

- Participant **must be physically present** to deliver the presentation.
 - Presenters must wear **formal or semi-formal attire**.
 - Presentation duration will follow event instructions (usually 3–7 minutes).
 - Participants must be prepared to answer detailed technical and conceptual questions about their work.
-

4. PENALTIES, NON-COMPLIANCE, AND DISQUALIFICATION

Maintaining transparency and fairness is essential. Violations of the rules below will result in penalties or disqualification.

Immediate Disqualification

A participant will be disqualified if any of the following occur:

- Plagiarism or data falsification
- Failure to disclose AI-generated content
- Missing ethical approval where required
